

Honeycomb Waveguide Vent

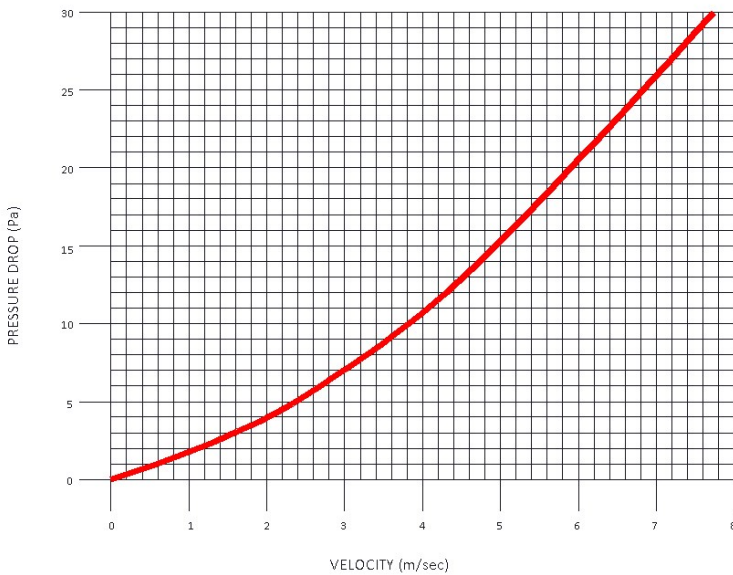

Features:

- ◆ Available in 3/16" and 1/8" cell size
- ◆ Flange mounting allows for field location and installation into an existing room.
- ◆ Minimal air flow resistance and pressure drop.
- ◆ Continuously solder fused for superior strength and RF performance
- ◆ Available in both brass and steel frames

Cell Size	100dB ATTENUATION
3/16"	10 GHz
1/8"	40 GHz

Options:

- ◆ Custom sizes available.
- ◆ Dielectric "non-conductive" collar to accommodate the interconnection of metal ducts. Required to maintain the single point ground of the RF shielded enclosure.
- ◆ Round configurations
- ◆ Security bars
- ◆ Brass honeycomb
